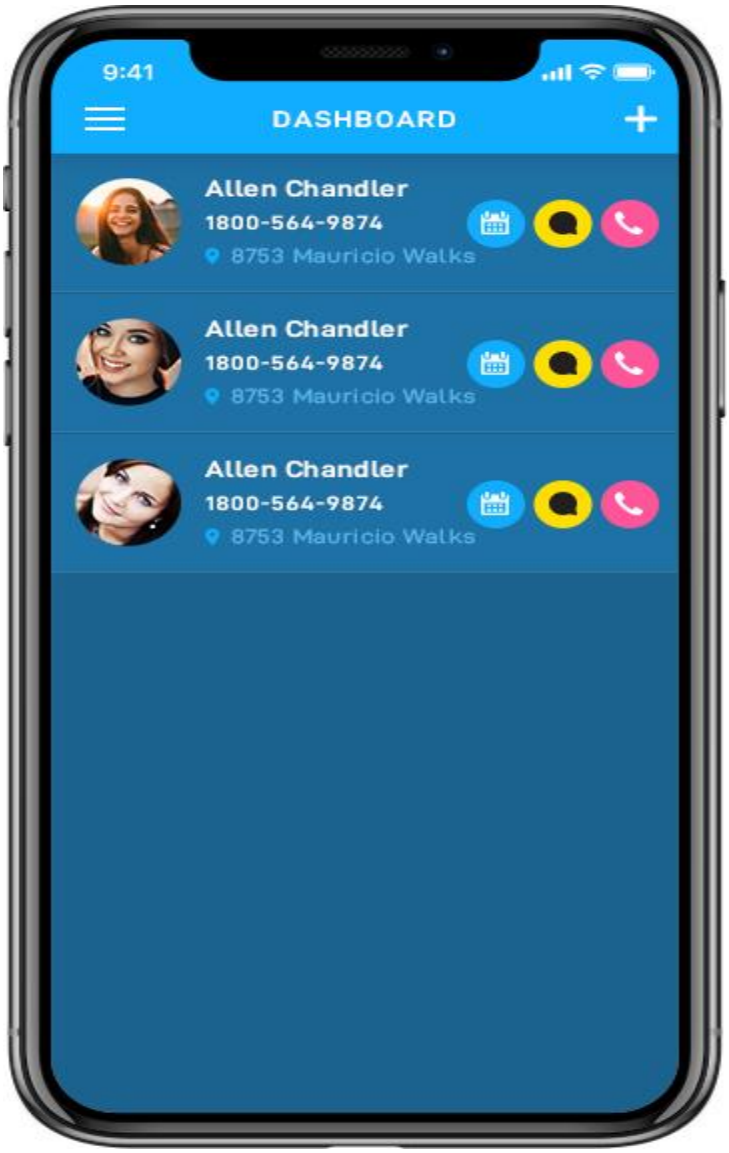
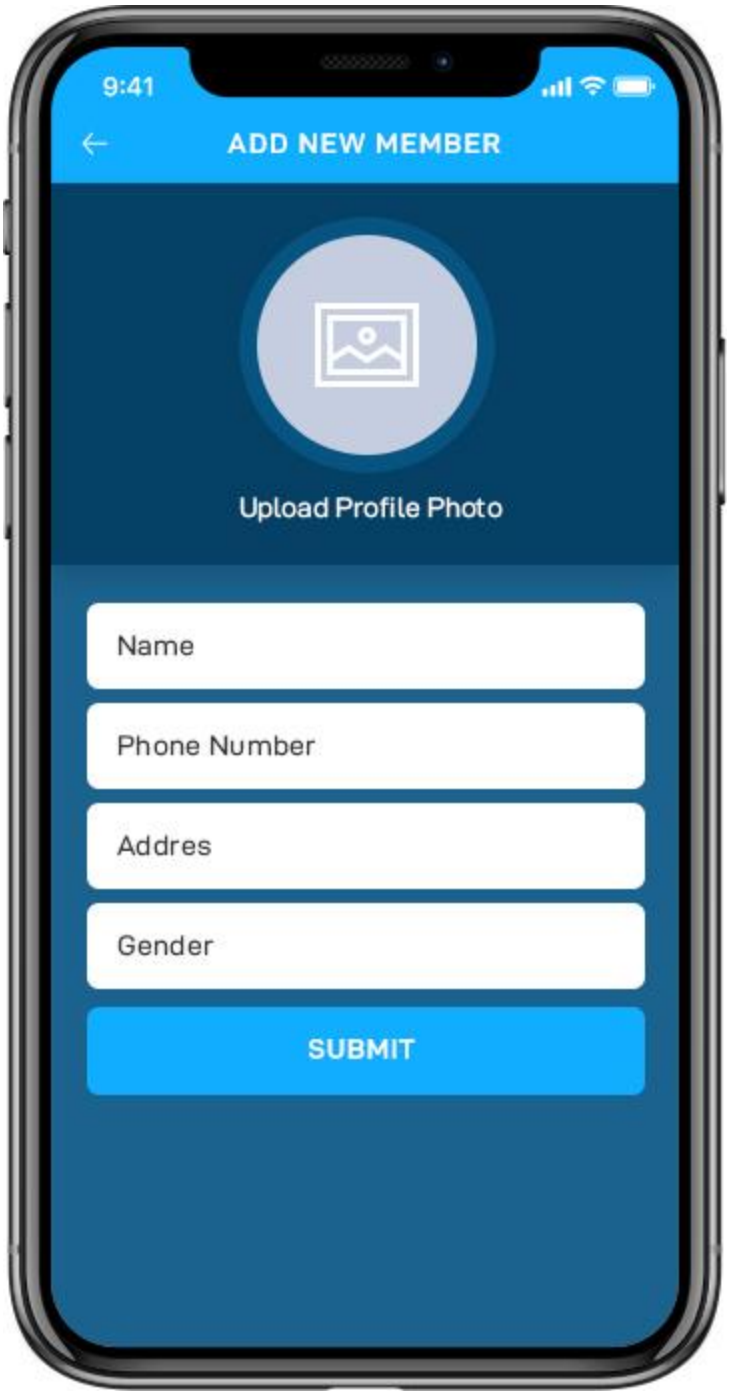
Dashboard Screen:

I would like the user of the app to be able to place the call through her phones contact list



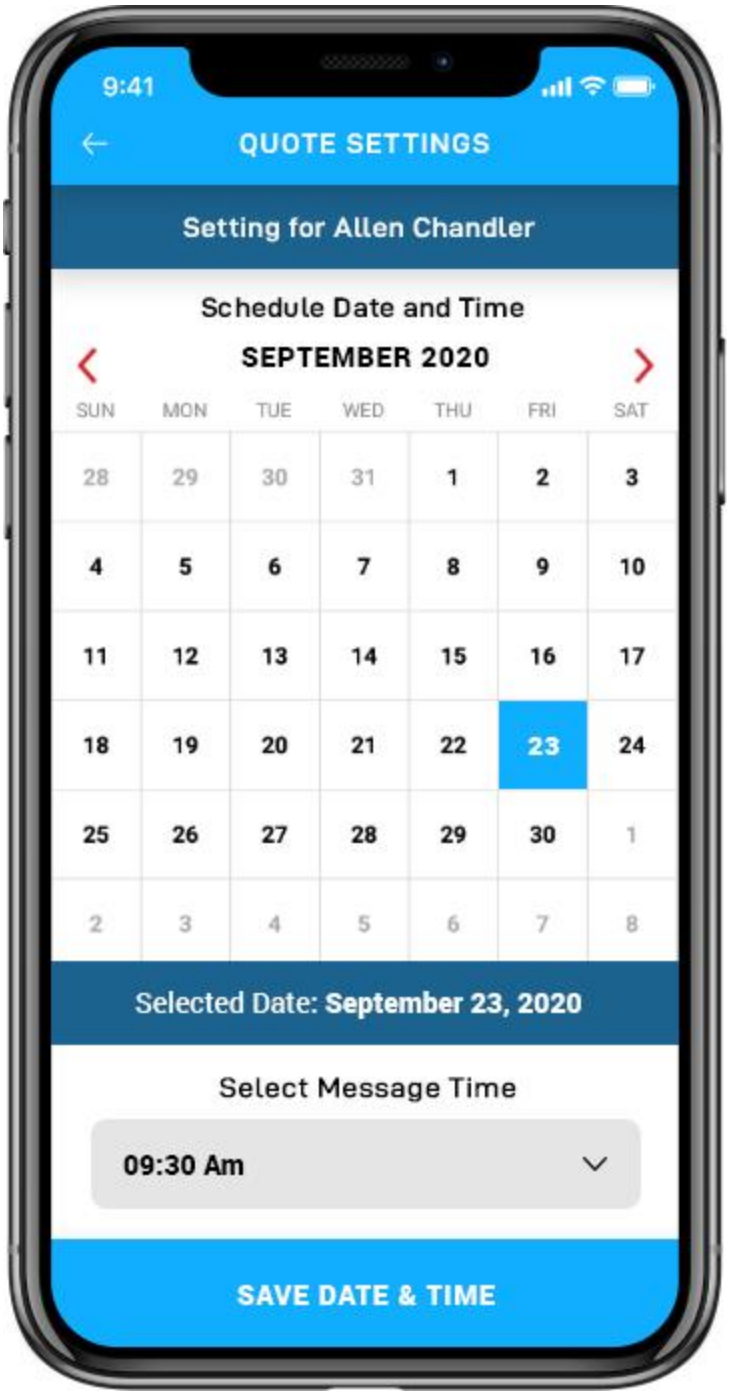
Add New Member Screen Change to: My contact

Remove Address and Gender



Quote Setting:

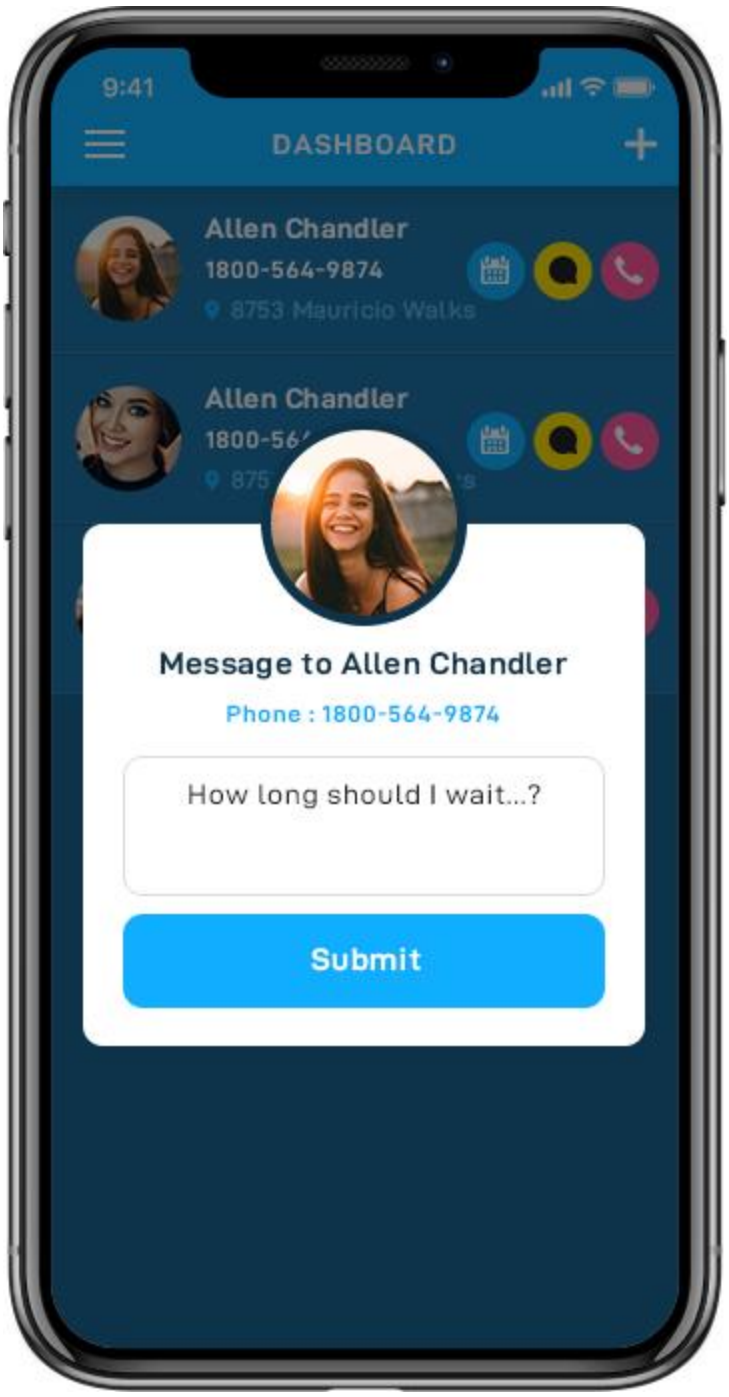
A calendar is fine as an option. But the quotes are to be sent randomly



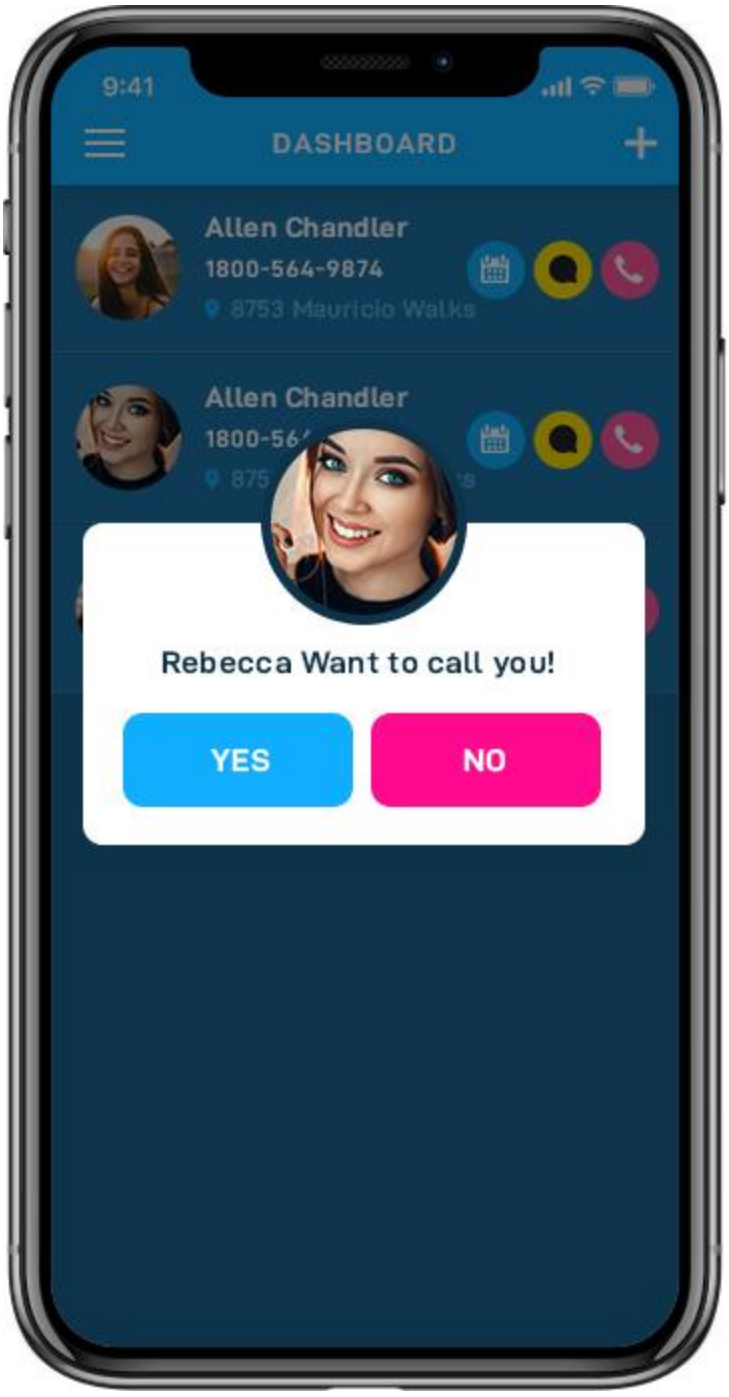
This is Great!

I plan to put a research group together to come up with the questions that the app users can submit. I'm also going to get a real life coach to come up with the questions for the group.

Ansul, would I program those answers and question inside the app or will you?



Dashboard: Rebecca Your last contact with your date was at { whatever date and time the last contact was made by either party)

Are you sure you want to place this call?


If you choose yes”you can choose to get a conversation starter.
